About

Hello! My name is Mirko and I enjoy creating things that live on the internet. My interest in web development started in 2021 when I decided to try automate things with Python for my job at the time.

Fast-forward to today, and I've learned many things in web development throughout many courses and books.

My main focus these days is working with React and Django. I can describe myself as workaholic and always interested in getting more knowledge.

Education

Faculty of Civil Engineering - Skopje - 2011/2014 - Bachelor Degree

Skills

- HTML
- CSS
- SASS
- Tailwind
- Javascript (ES6+)
